

benefit from ~~the-a~~ healthy environment, and to mention those instances of the human ~~rights-which~~ rights, which have some environmental dimension.

The ~~basics-Basics~~ of the ~~right-Right~~ to ~~benefit-Benefit~~ from ~~the-a~~ healthy ~~Healthy environment~~ Environment

For every phenomenon to be enhanced, it must reach a level in which it is possible to justify its existence. The Environment is also a collection of natural ~~phenomenon-phenomena~~ that in order to establish balance among the rival forces in ~~the~~-nature, binds the life of a biological group, and has strong theoretical foundation, which makes it impossible to be recognized without their study-of-the-foundations.

A: ~~the-The~~ Human ~~right-Right~~ of human to ~~live~~ Live

The life of all ~~the~~-creatures on the planet earth is interwoven and there is a vast correlation between ~~them-which~~ them, which can be called the circle of life circle; ~~but-however~~, in this ~~correlation~~ correlation, the heavier side has always been on humans, that mean the life of ~~the-other~~ creatures is affected by human deeds, and this effect can ~~either-be~~ either harmful or beneficial.

According to the ~~3rd-third~~ article of the declaration of human rights “each person has the right of life, freedom and personal security”, and ~~also~~-according to the ~~6th-sixth~~ article of the first section of the ~~international-International~~ Treaty of ~~civie-Civic~~ and ~~political-Political~~ rights-Rights, “the right of life is of natural rights of human beings, and this right is under protection by law, and no one can be deprived from life impudently”, ~~it-It~~ can be conveyed that the right to live is a certain right that has been identified and specified in the international society. For this reason, the right of life can be respected only when the conditions for it to be observed are at hand. It is obvious that the right to benefit from ~~the~~-healthy life is not obtained, unless ~~the-a~~ healthy environment is at hand.

According to the first section of the UN conference prologue on the healthy environment and humans, it can be deduced that the right to benefit from ~~the-a~~ healthy environment leads to his use of basic rights, among them, the right to live.
